

AIRCRAFT OWNERS AND PILOTS ASSOCIATION

February 4, 2011

Mr. Lance K. Fisher
6870 Rolling Acres Rd.
Excelsior, MN 55331-9679

Dear Mr. Fisher,

As a member of AOPA, we care about your health and the health of your family. We believe in preventive health. That's why we recommend that all members, particularly those 50 and older, make an appointment with Life Line Screening.

- Where: South Shore Center in Excelsior**
- Sponsored by: Fairview**
- When: Wednesday, March 2, 2011. Pre-registration is required.**
- How: Call Life Line Screening toll-free at 1-888-808-8895**
Visit LifeLineScreening.com/AOPA and enter your zip code.

Using the latest medical technology, Life Line Screening's ultrasound scans aid discovery of health risks before they become serious. For example, strokes are the fourth leading cause of death in the U.S., but over 80% of strokes can be prevented. In a painless screening that takes just minutes, Life Line Screening can visualize the inside of your carotid arteries and determine plaque buildup. That's important because 4 out of 5 people who have a stroke show no prior symptoms.

Life Line Screening's professional technologists also perform screenings for Atrial Fibrillation, Abdominal Aortic Aneurysm, Peripheral Arterial Disease, and Osteoporosis. You may wonder why your doctor hasn't ordered these screenings. Many doctors typically can't order screenings without symptoms; health insurance often will not pay for preventive screenings.

A specially-priced Stroke, Vascular Disease and Heart Rhythm Package, consisting of four screenings, is available to members of AOPA for only \$135. You may add the Osteoporosis Risk Assessment to the package for only \$10. This rate also applies to your family and friends.

Your screenings will be completed in about an hour. Socks and shoes are the only
